Sensei **JITENDRA MHAISKAR**  
Chair Person & Director

## Introduction

With the progress of economy and industrial wealth of the country we are also facing evils like unemployment and inflation. As a result of this there is more of corruption and crime and citizens feel they are insecure. What have we really done to protect our life and property? if at all we have done something is it worthy of praise? it is high time we thought over his.

The body guards or the security guards whom we employ should be mentally and physically capable. It is no use employing an individual with a flabby body a thick moustache. A soldier's uniform and a gun on the shoulder that we generally see.

But what we actually need is a karate Trained youth full of vigour and vitality and courage who can fight evil unarmed. "**BLACK-BELT FORCE**" is the agency who can provide you with a person with keen observation and swiftness of movement to take care of you and your property. In return for reasonable pay packet these black-belt holders can give you extraordinary service.

## *Security Services And Profile*

We are new entrants in the field of industrial security in this part of the country but by no means a novice. Our main field of activities is to provide personal protection, conduct vigilance and investigations, in strict sense, of personal private matters. These matters covers a wide area of human weakness, interests and obligations. Some times it happens to be analogy of that wall which neither can wall or can talk. Yet it is dashed against by miscreants and /or innocent wrogndoers. Please find given below, our profile, modus operandi and cost of our services for your kind personal and appreciation.

Our president besides having a high academic qualification, did not opt for a incrative government service that came his way. He, persuaded by the preavailing social conditions that include; unemployment of highly educated youth and resultant social chaos, made a decision to help out the needy, if not all at least those who commanded the merit on basis of needs for a job. He rightly chose the field of personal security and we came in being 10 years ago, in form a trainer in martial arts for industrial security personal and aptly christened "**BLACK-BELT SECURITY FORCE**".

Our firm is proprietary, yet we maintain business transparency and area step away from the evil of exploitation. Our business dealings confirms the fulfillment of statutory obligations towards our presonal supervision train the man-power to be deployed to suit the requirement.

**THIS IS OUR ASSURANCE, THIS IS OUR PROMISE.**
